

KARTHIKEYA VARMA ATMAKURU

+91 6281968089 karthikeya0806@gmail.com LinkedIn Github

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience developing AI-powered and full-stack applications through an Artificial Intelligence internship and academic projects. Proficient in Java, Python, SQL, REST APIs, MySQL, Data Structures, Object-Oriented Programming, and SDLC. Experienced in software development, testing, debugging, and database design for scalable applications.

EDUCATION

Institute of Aeronautical Engineering , Hyderabad	Jun 2022 – May 2026
Bachelor of Technology in Computer Science and Engineering	CGPA: 7.28/10.0
Narayana Junior College , Hyderabad	Jun 2020 – Apr 2022
Intermediate Education	77.2%
Infant Jesus High School , Rajampet	Jun 2019 – Apr 2020
Secondary Education	CGPA: 10/10

TECHNICAL SKILLS

Programming Languages	Java, Python, SQL, C
Web Technologies	HTML, CSS, JavaScript, React (Basics)
Backend	REST APIs, LangChain, Gradio
Core Computer Science	Data Structures, Algorithms, OOP, DBMS, Operating Systems, SDLC
Database	MySQL
Tools	Git, GitHub, VS Code

EXPERIENCE

Vayudwajaim Aerospace	May 2025 – Jun 2025
Artificial Intelligence Intern	Hyderabad
- Engineered 2 AI-powered applications using Python and LangChain to automate educational workflows. - Created and integrated 8+ prompt-engineering workflows supporting intelligent query processing and response generation. - Collaborated with a 3-member development team, reducing debugging effort by approximately 30% through code reviews and testing. - Tested, validated, and optimized 25+ software modules before deployment, improving application reliability.	

PROJECTS

EduGPT – AI Instructor using Multi-Agent LLM Architecture (GitHub Link)	Jun 2025 – Sep 2025
- Engineered a multi-agent AI learning platform using Python, LangChain, and Gradio to provide personalized educational assistance. - Architected a 4-agent system supporting syllabus generation, doubt clarification, quiz generation, and personalized learning.. - Built 12+ backend modules for context management, conversation memory, and intelligent response generation. - Integrated LLM-powered workflows supporting 100+ simulated learning sessions during testing. - Automated syllabus generation and assessment workflows, reducing manual effort by approximately 60%. Tech Stack: Python, LangChain, Gradio, LLMs	
Direct Market Access for Farmers (GitHub Link)	Aug 2024 – Nov 2024
- Built a Java-MySQL based full-stack web application enabling farmers to directly connect with buyers. - Created 5 relational database tables supporting users, products, categories, orders, and transactions. - Developed 10+ responsive webpages using HTML and CSS with secure database connectivity. - Built CRUD functionality supporting 500+ sample product records during testing. - Applied Object-Oriented Programming principles to improve code modularity and maintainability. Tech Stack: Java, MySQL, HTML, CSS	
Library Management System (GitHub Link)	Jan 2024 – Mar 2024
- Developed a database-driven application for managing books, students, and issue records. - Created 6 CRUD modules supporting record creation, updates, deletion, search, and retrieval. - Managed 1000+ sample book records using MySQL during system testing. - Optimized SQL queries to reduce record retrieval time by approximately 30%. - Applied Object-Oriented Programming concepts to improve software maintainability. Tech Stack: Python, MySQL, HTML, CSS	

CERTIFICATIONS

- Artificial Intelligence Internship Certification – Vayudwajaim Aerospace
- Data Science using Python
- HackerRank Problem Solving Certification

ACHIEVEMENTS & CODING PROFILES

- | | |
|------------------------|---|
| • LeetCode | Solved 250+ Data Structures and Algorithms problems |
| • GeeksforGeeks | Regular problem-solving and coding practice |
| • HackerRank | 3 Badges and Problem Solving Certification |
| • CodeChef | Competitive Programming Participant |

STRENGTHS

- Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, DBMS and Operating Systems
- Excellent analytical thinking and software debugging skills
- Quick learner with ability to adapt to new technologies
- Strong collaboration, communication and problem-solving abilities

ADDITIONAL INFORMATION

Areas of Interest: Software Engineering, Full Stack Development, Artificial Intelligence, Backend Development, Database Systems

Languages: English, Telugu, Hindi
